The WFWIB serves its mission through the following core areas:

- **Career Development**: the WFWIB responds to the needs of the community by building and enhancing career development and workforce training system.

The strategic vision of the WFWIB is a job for every worker and a worker for every job. This vision is employer-focused, with an emphasis on building industry partnerships with healthcare, advanced manufacturing, energy, and transportation. In partnership with the PA Department of Labor & Industry, PA CareerLink also provides services for businesses that are seeking new employees, or training for current employees.

The WFWIB believes that there are four keys strategies to achieving this vision:

- To ensure that workforce investments are based on labor market and economic analysis.
- To develop a skilled workforce trained for high demand/high priority occupations
- To manage employer driven industry partnerships in high growth/economically critical industries.
- To prepare youth for careers in high growth/economically critical industries.

ORGANIZATION INFORMATION

With seven dedicated employees and a 29 member board of directors comprised of 51% majority business, community-based organizations, economic development agencies, education, labor and public sector partners, WFWIB has an annual budget of approximately $12 million for operations and programs.
